ON THE LIST

Dr. Ramundo | 12

Giovanni Ramundo, MD

Medicine is a lifelong passion for pain management specialist Dr. Giovanni Ramundo. Board certified in pain management and anesthesiology, he provides effective therapies yielding long-term results for people of all ages and activity levels. With a focus on low back and neck pain, Dr. Ramundo tackles any pain resulting from injury or failed surgery. He regularly treats muscle spasm, tennis elbow, fibromyalgia, joint pain, carpal tunnel syndrome and diabetic neuropathy. This multiyear *New Jersey Monthly* Top Doctor is considered an expert in complex regional pain syndrome and in using Suboxone® to wean patients off medication.

In an effort to bring skilled pain management directly to patients, Dr. Ramundo opened a Manasquan office this summer and is available at satellite offices in New York and Pennsylvania, where he is also licensed to practice. Alongside Dr. Robert Jongco, physician assistant Lori D'Andrea and an accommodat-

ing staff, Dr. Ramundo provides cutting-edge care with a personal touch. He utilizes minimally invasive techniques, including platelet-rich plasma (PRP) injections, spinal cord stimulators, Tenex Health TX® ultrasound, acupuncture and physical therapy—plus Botox® to treat migraines. Nonsurgical weight loss and wellness services are also offered.

The practice's motto—"Life without pain"—reflects its dedication to patient care. "Patients trust my ability to change their lives for the better," Dr. Ramundo says.

HOSPITAL AFFILIATIONS: Saint Barnabas Medical Center, Livingston; Livingston Surgery Center; Short Hills Surgery Center, Millburn; Overlook Medical Center, Summit. **MEDICAL TRAINING:** Penn State College of Medicine (MD); Penn State Milton S. Hershey Medical Center (fellowship).
